

Otolaryngology (ENT)

Ear, Nose, Throat

Hours - 8:30 AM to 5:00 PM

Contact - Phone: 354-5496

Commonly known as ENT, the Otolaryngology Department provides medical and surgical treatment of diseases of the ear, nose, and throat in both adults and children. Physician services include consultation and evaluation of disorders of the head and neck, minor office surgery, endoscopy, somnoplasty, and ongoing follow-up care.

Our providers work collaboratively with Dartmouth-Hitchcock Keene Audiology Services which provides diagnostic services, hearing evaluations and the latest in hearing aid options. In addition, our providers work closely with the Allergy/Immunology Department offering comprehensive management of sinus disease in the Sinus Center.

Outpatient and inpatient surgery are provided at Cheshire Medical Center's Special Services Center or main Operating Rooms.

Also visit our Allergy/Immunology page.

Staff:

- Donald V. Wilson, MD

- Pamela Slocum, PA-C
